---

**I. REQUEST/ISSUE & BACKGROUND INFORMATION:**

Staff was tasked with identifying viable options to locate a new Central Fire Station. A committee of citizens and staff have been working on analyzing locations that would meet the needs of the fire department in regards to space and function. This presentation will include a summary of what the committee has done to date and the direction received from council to staff at the last presentation which took place on June 11, 2019.

**II. SUMMARY AND ALTERNATIVES:**

At last council meeting there were two sites still in consideration; 10th Street combined building with City Hall and Stockbridge Transit Center. The City Manager in consultation with the Site Feasibility Committee are recommending to suspend work on the Stockbridge location primarily due to multi use conflicts. Work on the 10th Street location continued and a summary of the work to date will be presented to council. An additional site consideration was revisited and will also be presented to council.

**III. STAFF RECOMMENDATION:**

Staff will present 3 different options to council.

Option 1 (recommended): Continue development of the idea of a Mountain Station renovation with smaller "satellite" station located in downtown area.

Option 2: Continue to develop the 10th Street location solely

Option 3: Continue work on both locations

**IV. FISCAL IMPACT:**

The current budget of the project will be presented to council during the presentation along with the additional cost estimates of the different options as stated below.

Option 1: \$62,000

Option 2: \$51,000

Option 3: \$113,000

**V. LEGAL ISSUES:**

No foreseen legal issues at this time

**VI. CONFLICTS OR ENVIRONMENTAL ISSUES:**

No environmental issues noted at this time.

**VII. CONSISTENCY WITH COUNCIL GOALS AND POLICIES:**

This project is consistent with City Council goal of determining a long term funding strategy for emergency services.

**ATTACHMENTS:**
